OBJECTIVE:

Senior iOS engineer seeking an opportunity to build high-impact mobile experiences, drive architectural decisions, and mentor engineering teams.

PROFESSIONAL EXPERIENCE:

Senior Software Engineer - iOS   June 2025 — September 2025

Total Quality Logistics (TQL), Cincinnati, Ohio

- Served as a technical leader for the iOS team, driving decision-making across architecture, frameworks, and development standards
- Delivered complex, high-visibility features for internal application, improving reliability and user experience
- Mentored developers and guided the team through design reviews, debugging efforts, and rollout strategies
- Provided cross-functional support to Product, Quality, and Android teams, ensuring alignment on requirements and execution

  Technologies: Swift, SwiftUI, UIKit, Core Data, C#, SQL

Software Engineer - iOS   October 2022 — June 2025

Total Quality Logistics (TQL), Cincinnati, Ohio

- Developed and maintained two enterprise iOS applications:
  - An internal operations app used by employees for after-hours workflow continuity.
  - A driver-facing app enabling carriers to engage directly with TQL systems.
- Operated as one of two iOS developers working collaboratively with three Android developers in a cross-platform mobile team.
- Led technical decisions, established development patterns, and mentored junior engineers to strengthen the team's mobile competency.
- Drove significant improvements to the internal iOS application, contributing to noticeable increases in team adoption and positive user feedback.

  Technologies: Swift, SwiftUI, UIKit, Core Data, C#, SQL

Associate Software Engineer - C#   June 2021 — October 2022

Total Quality Logistics, Cincinnati, Ohio

- Implemented features and resolved defects in an enterprise C# WinForms application supporting internal operations.
- Contributed to the design and development of RESTful APIs supporting both WinForms and web applications.
- Worked within a team of five C# developers, contributing to consistent, high-quality release cycles.
- Onboarded and mentored new engineers, accelerating team productivity and knowledge transfer.

Technologies: C#, WinForms, Angular, TypeScript, SQL

RELEVANT TECHNICAL SKILLS:

Programming Languages: Swift

Apple Technologies: iOS, SwiftUI, UIKit, SwiftData, Core Data, visionOS

IDE: Xcode

Version Control: Git

App Development: 4+ years of professional software development including Swift and C#

EDUCATION:

Bachelor of Science, Information Technology | Concentration: Software Development **GPA: 3.336**

University of Cincinnati, Cincinnati, OH Graduated: April 2021

Relevant Coursework: Contemporary Programming, Web Development, System Admin

LANGUAGES:

Spanish: C1 – Advanced proficiency
English: Native
